

Authentigate Service Terms

Effective date: /signing date/

1 Principles of Use of Authentigate Service:

- 1.1. Authentigate Service enables Subscriber to request and receive verified information about the User. Detailed description of the Service and integration instructions are available: <https://github.com/SK-EID/authentigate-documentation>.
- 1.2. When using Authentigate Service, the General Terms of Subscriber Agreement apply.
